Dear Sir:

In response to the Office Action dated 12-12-2003, reconsideration and allowance of the subject application are respectfully solicited.

Claims 41-86 are pending in the present application, with claims 41, 60, 66 and 76 being independent.

In response to the Restriction Requirement set forth in the Office Action, Applicant provisionally elects Group I (claims 41-59, 66-75, 78, 80 and 83), with traverse.

Applicant respectfully requests reconsideration and withdrawal of the Restriction Requirement. Applicant submits that all of the claims could be examined in a single application without undue effort. Applicant further submits that, if the Examiner acts on all pending claims in the present application, then the overall examining time will be

less, and the resources of the U.S. Patent Office would be more efficiently utilized, than if the claims are restricted to two separate applications. Moreover, Applicant earnestly believes that the examination of all pending claims in the present application would result in and ensure uniform prosecution. In the interests of prosecution economy and efficiency, and uniform prosecution quality, therefore, Applicant respectfully submits that withdrawal of the Restriction Requirement would be appropriate in the present application.

Applicant respectfully submits that all pending claims are in condition for allowance and notice to this effect is respectfully requested.

If, however, the Examiner believes that there are any unresolved issues requiring adverse action in any of the claims now pending in the application, it is requested that the Examiner telephone Mr. Craig Plastrik, at 301-601-7252, so that appropriate arrangements can be made for resolving such issues as expeditiously as possible.

Respectfully Submitted,

Dated: December 16, 2003
